In Memoriam

Chet Wright

1931 – 2014

Chester “Chet” Wright was a fixture at Stockton Folk Dance Camp for 30 years. He was raised in Stockton, married 62 years to Jan Wright (Stockton Folk Dance Camp’s Registrar for decades), and lived the last 20 years in Shingletown, California. He and Jan were members of the Redding Folk Dancers.

Most of the recent Campers will remember Chet as the manager (with Oscar Faoro) of the morning break. He was also indispensable in the Camp office, setting up and taking down the dance floors, running errands, moving furniture, picking up and delivering people to the airport or train station, and so much more.

Marcel Vinokur

1929 – 2014

Marcel was a major contributor to the folk dance movement, particularly in the San Francisco Bay Area. He taught as many as six international folk dance classes a week during his prime (from Menlo Park to Santa Cruz), and at least two nights a week for most of his adult life. He held monthly all-request international dance parties (with dancing in two rooms simultaenusly!) as well as an annual folk dance New Year’s Eve party. Many of today’s dance teachers and leaders took classes from Marcel. In early 2010, *Let’s Dance!* magazine published a series of four articles about Marcel and his influence on international folk dance in California.

Marcel attended Stockton Folk Dance Camp from 1971-1983, but the dances taught at Camp continued to be a major part of the curriculum for his classes until he stopped teaching in 2012.

Inge Kress

1933 – 2014

Inge Kress was involved with all kinds of folk dancing for most of her life. She and her husband Gregor were part of the Camtia German dance troupe, and later she was Bruce Mitchell’s partner in the Vintage Dance performing group. She also loved to sing and sang with the Zado Singers for over 20 years. She danced with many of the international dance groups in the Greater Sacramento area. She had a beautiful singing voice and sang with the Zado Singers for over 20 years.

She attended Stockton Folk Dance Camp for 27 years, the last time in 2008. Inge had a stroke in 2009 and never fully recovered.

Pat Lisin**1931 – 2014**

Pat Lisin, with Al, her husband of 62 years, was a long-time folk dancer in the San Francisco Peninsula, and especially active with the Palomaniacs and the Peninsula Folk Dance Council.

Pat and Al last attended Stockton Folk Dance Camp in 2010, having attended for 14 years.

Zora-Mae Torburn**1929 – 2014**

Zora-Mae (Mimi) was a very active teacher of international folk dance and hosted dance parties on the family home almost every weekend during her most active years. She taught dance classes from South San Francisco to San Jose, but primarily in San Carlos. Zora-Mae was a member of the Federation Research Committee for many years and authored or co-authored several of the dance descriptions printed in *Let's Dance!* magazine.

She attended Stockton Folk Dance Camp from the mid-1960s to the early 1980s with her first husband, Roy. She married Jim Vice, and they attended together until 1988.

Gary Lanker**1940 – 2014**

Gary Lanker, with his wife, Caroline, attended Stockton Folk Dance Camp together from 2009 to 2012. Living in Frostproof, Florida, they danced in central Florida, and Gary and his wife were long-time members of the Florida Folk Dance Council.

In 2010, the Lankers offered a six-day stay at their “bed and breakfast” at the auction to benefit the Stockton Folk Dance Camp scholarship fund. They advertised it for two people, but when the high bidder, Robert Null, wanted to bring four people, they made it work.

Caroline is attending Stockton Folk Dance Camp this year.

TEACHING STAFF BIOGRAPHIES

Cristian Florescu and Sonia Dion – Romanian

Cristian Florescu was born in Bucharest, Romania. He started dancing in 1982 with different Romanian folk ensembles and studied with various specialists, including Theodor Vasilescu. Cristian was principal dancer with the National Ensemble Cununa Carpatilor. In 1990-91, he received his certificate as a recognized solo dancer and choreographer in the field of folklore from the Romanian Ministry of Culture and the ACAFR. In 1993, he joined Les Sortilèges, a professional folk dance company based in Montreal, as a dancer, teacher, rehearsal director and choreographer. During his time in Canada, Cristian has acquired multiple skills in various dance forms, including modern dance, ballroom, jazz and tap, as well as French-Canadian and Irish step dancing.

Sonia Dion was born in Quebec and has been a professional dancer for over 20 years. She was lead dancer and choreographer for Les Sortilèges dance company, Canada's oldest folk dance ensemble, with whom she developed several new productions. Sonia has toured worldwide and has been exposed to a wide range of dance techniques, including Romanian folk dance, Scottish Highland dancing, French-Canadian step dance and ballroom dance.

In recent years, Cristian and Sonia have developed a specific interest in working with recreational folk dance groups in Canada and the United States to share their love of Romanian folk traditions. They have taught workshops in Canada and the United States and choreographed Romanian suites for performing groups, including the world-renowned BYU Folk Dance Ensemble in Utah. In 2006, they did a teaching tour of Taiwan and Japan.

Christian and Sonia's prior appearances at Stockton were in 2004, 2005, 2007, 2010 (which featured their wedding as part of Camp) and 2012.

Cesar Garfiaz – Salsa Rueda

Cesar Garfiaz was born and raised in Hollywood, California. He began dancing Salsa at the age of seven, going on Sundays to Steven's Steakhouse, a famous Salsa spot in Los Angeles. In high school he was part of a performing arts class for two years where he learned of his passion for performing. In 2004

Cesar joined UCLA's Department of World Arts and Cultures. Cesar Garfiaz is a founding member of Contra-Tiempo.

Over the past seven years Cesar has studied various styles, including modern, hip hop, house, tai chi, Ghanaian, Mexican Folklorico and Afro-Cuban. As a part of UCLA's Repertory Tour Ensemble, Cesar performed and inspired young people in high schools all over Los Angeles. He currently teaches Salsa and Latin Dance at Cal Poly Pomona and at several studios around Los Angeles.

This will be Cesar's second appearance at Stockton Folk Dance Camp following his debut in 2014.

Zeljko Jergan – Croatian

Željko Jergan is a renowned choreographer and teacher throughout the world. Since moving to the United States in 1986, Željko has created over 350 original choreographies for 70 different amateur, semi-professional and professional ensembles. A native of Varaždin, Croatia, Željko was a leading performer with the Croatian National Folk Ensemble Lado for twelve years. He also performed with the Zagreb National Ballet and Modern Dance Companies for several years.

When he's not researching and creating new choreographies, Željko stays extremely busy working with the international folk dance community, where he is in popular demand for his depth and style in teaching Croatian folk dancing. He has traveled extensively both domestically and abroad, including folk dance seminars and workshops in the United States, Canada, Europe, Japan and Taiwan.

This is Zeljko's fourth time on the Stockton Folk Dance Camp faculty.

Genci Kastrati – Albanian

Genci Kastrati finished his studies at the Academy of Fine arts in historical dancing, which is the Albanian equivalent of folklore dancing. By that time he was already a solo dancer at the National Ensemble, but also became choreographer for the ensemble and presented his first complete concert in 2008. Apart from this job, Genci is also teacher at the Art Academy, the Academy of Sports and member of the scientific council of the National Centre for Non-material Culture, and occasionally involved in teaching at amateur groups. Since 2010, Genci has been teaching at workshops in Italy, Switzerland, Sweden, Germany and the Netherlands.

This is Genci's first appearance at Stockton Folk Dance Camp.

Kay Munn – Scottish

Kay Munn grew up in Glasgow, Scotland, where she was introduced to Scottish Country Dancing in school. In 1986, she crossed the Atlantic and lived briefly in Canada, South Carolina and New York.

In preparation for a Burns Night celebration, she told some friends that if they could find the music to Scotland the Brave, she would teach them a Scottish dance. The music was provided and they danced the Gay Gordons! This led to her re-entry into the world of dance, and she enjoyed classes with renowned deviser Terry Glasspool.

Returning to Canada in 2001, Kay was immediately adopted by the local Royal Scottish Country Dance Society (RSCDS) Kingston, Ontario, Branch, and she was encouraged to pursue a Teaching Certificate. With Branch support and an RSCDS scholarship, she obtained her certificate in St. Andrews, Scotland.

Kay has taught at Pinewoods Scottish sessions and has been a frequent teacher at Mainewoods Dance Camp. She teaches classes and workshops at all levels in the local area. The dance The Flower of Glasgow was written for Kay and recently published by the RSCDS – a huge honor. A proud Scot, Kay is comfortable baking shortbread, knitting kilt hose, addressing the haggis, or savoring a dram, but she has little time for much of this, because she's usually dancing!

This is Kay's first appearance at Stockton Folk Dance Camp.

Götz Zinser – German

Götz Zinser comes from Baden-Württemberg, a state in southwestern Germany, near Stuttgart, at the edge of the Black Forest. He teaches traditional dances from all of Germany with a specialization in dances from South Germany, as well as Bavarian dances. He also teaches German sword-dance and flag-swinging. He has been dancing and teaching folkdance for the “Arbeitsgemeinschaft der Sing-,Tanz- und Spielkreise” (ag.volkstanz.com) for over 40 years, and is currently the director. For the last 17 years, Götz has been leading a folkdance week in Germany. He also teaches various seminars to educate and train folk dance leaders. In his professional life, Götz owns his own forge and mechanic shop.

This is Götz’s first appearance at Stockton Folk Dance Camp.

Pierre Sandor Diabankouezi – Congolese Workshop

Pierre Sandor Diabankouezi is a master choreographer of traditional dance, drum rhythms, songs, and kalimba from the Republic of the Congo. He began formal training in traditional Congolese dance at the age of 9. He was choreographer and lead dancer for over 10 years with the Congolese National Dance Company (Le Ballet National du Congo). In 1974, having completed his graduate studies and receiving his Masters in art and drama, Sandor became a professor teaching undergraduate level students of the arts as well as those pursuing professional careers in performing traditional dance and music. Thirty years later, Sandor continues to choreograph and perform with Oakland, California’s Fua Dia Congo, a company founded by the late Malonga Casquelourd. He also works with his own group, Ballet Bantu. Sandor has traveled extensively around the world teaching master classes, teaching and performing at schools and festivals. When he is not traveling, Sandor teaches drum, song, and dance classes in the San Francisco Bay Area.

This will be Stockton Folk Dance Camp’s first experience with Sandor.

Nils Fredland – Contras and Squares Workshop

Nils has been calling contras and squares since 2000. He draws his material from a large and varied repertoire of dances, ranging from the centuries-old “chestnut” contra dances to the most cutting-edge contra dance choreography being done today. Also a square dance caller, Nils is well known for breathing new life into traditional singing squares from the mid-twentieth century, and has co-authored and edited two books on the topic for the Country Dance and Song Society (CDSS).

In addition to his work as a dance caller, Nils is a trombonist. Since 2006, he has been resident dance caller and trombone player for two bands, Elixir and Maivish. He also works regularly as a caller and sit-in musician with several other popular contra dance bands, including The Great Bear Trio and Nor’easter.

Nils is known for his expertise, skilled leadership, and community-minded approach. He travels coast to coast and overseas to call and play for contra and square dancers over 150 days a year.

This will be Nils’ first appearance at Stockton Folk Dance Camp.

Live Music with Miamon Miller & Friends

Live music will be provided by My Men & Yours. This will be Miamon's third visit to Stockton. He last brought his band of musicians to Stockton Folk Dance Camp in 2011 and 2013. He lives in Southern California.

Band Members First Week: Miamon Miller - Violin, Michael Lawson - Accordion, Steve Ramsey - Rhythm, Bill Lanphier - Bass.

Band Members Second Week: Miamon Miller - Violin, Michael Lawson - Accordion, Paul Brown - Bass, Bill Cope - many instruments.

Michael Lawson plays accordion. Michael has taught accordion at the Mendocino Balkan Music Camp in California, was a founding member of Balkan Cabaret, which ran from 2001 to 2010, and has performed locally in the Pacific Northwest and elsewhere. Michael will also be leading the singing classes.

Steve Ramsey plays the guitar and provides vocals for the band. He began performing Balkan music with Seattle's Radost Folk Ensemble in 1976.

Bill Lanphier plays bass.

Paul Brown plays bass.

Bill Cope is a multi-instrumentalist who has performed in concert settings on over 50 instruments. He began playing Balkan music in 1975.

Învârtita din Căstău

(Hunedoara County, Transylvania, Romania)

Învârtita dances (turning dances) are thought to have developed after the Purtata dances (walking dances). The most basic version of Învârtita involves turning only in one direction or the other. Unlike the Purtata family of dances, the Învârtita is found among Romanians beyond Transylvania and is not restricted to Hungarian-ruled areas; it has a universal name covering many regional versions. Învârtita din Căstău is from the family of *Învârtita șchioapa*, danced in the southern part of Transylvania. Each zone has its own particularity.

This dance is divided in two parts, the first one is made up of the basic steps danced in the primitive traditional way. The second part is the couple form. The characteristic of the music of Învârtita is an asymmetrical rhythm.

Lyrics

De la Rebrișoara* în jos mândru-i locul și mănos.
De la Rebrișoara în jos omu-i mândru și mănos.
De la Rebrișoara în sus Dumnezeu raiul l-o pus
Iară eu copcilul lui în mijlocul raiului.

Doamne cât om-ni de dor de casă și de ogor
De târnaț și de cuptor și de oala cu groștior**.
Mi-e dor de părinții mei c-am crescut pe lângă ei
De-aș putea m-aș duce în zbor
ca să m-ăstâmpăr de dor.

Mi-amintesc copcil eram doamne cât ne mai jucam.
Se lăsa sara pe sat noi venem de la scăldat.
Era plină ulișoara de copcii din Rebrișoara
În cămeșă și desculți Doamne cât eram de mulți.

Plăcinte mama făce cu dulceață le unge,
Luam în mână doua tri și-apoi fugeam la copcii.
Făcem lanț de gălbinele și cununi de sânziene.
Atunci era lumea me ș-alta nu-mi mai trebuie.

Iarna frigul și-l lăsa dar nouă nu ne păsa
Că nu ne mai dădem duși ziua de la săniuș.
Și ninge prin Rebrișoara de nu vedeai ulișoara
Prin omăt ne tăvălem nici-o grijă nu avem.
Unde s-o dus Doamne tăte aș căta da-n care parte,
Sat frumos unde ești Rebrișoară din povești.

Rebrișoara* is a beautiful, fertile place.
Down in Rebrișoara, men are proud and hardworking.
Up above Rebrișoara is God's heaven.
And I, its child, am in between.

Oh, Lord, how I miss my house and my land,
The veranda, the kitchen and the huge pot of *groștior***.
I miss my parents with whom I grew up,
If I could, I would fly to them to ease my heart.

I remember when I was small — oh, how we loved to play!
We would swim until sundown.
The lane teemed with the children of Rebrișoara,
In shirts and barefoot. Oh, there were so many of us!

My mother made delicious jam tarts.
I would grab two or three and run out to my friends.
We'd make crowns of wildflowers.
At that moment I was King of the World and I was fulfilled.

The winter was freezing but we didn't care,
We spent the whole day sliding on our sleds.
It snowed so hard in Rebrișoara we couldn't see the lane,
We played in the snow without a care.
Oh, my goodness, where has the time gone? I would like to
look for it, but which way should I go?
My beautiful Rebrișoara, where are you, the village of
my childhood?

*The name of a village.

**A local specialty similar to cheese.

NOTES

Cuban Salsa and Rueda de Casino

Note: Much of the material below appeared in the Final syllabus for the 2014 Stockton Folk Dance Camp, including the photographs showing the various hand signals. Some introductory material has been added, as well as some new figures.

Cuban Salsa (“Casino”) and Rueda de Casino (*roo-EH-thah theh kah-SEE-noh*) emerged in Cuba in the second half of the 20th century, a “Salsa” emerging from the rich mix of dances and rhythms already thriving throughout the island, including Son, Cha Cha Cha, Mambo, and multiple African-based expressions. The widespread global popularity of Cuban Salsa speaks to the depth of its roots in Afro-Cuban traditions and its capacity to keep growing and re-rooting in new places.

“Casino” refers to Cuban-style salsa in partners, while “Rueda de Casino” is a circle or wheel (rueda) of partners dancing in unison in response to the calls of the leader in the group. “Calls” in a Rueda include turn patterns, footwork sequences, and various games. Many of the calls for Rueda in Cuba speak to pop-culture themes and expressions, a repertoire that can expand and adapt to the many local cultures it encounters as it spreads throughout the globe.

Many students new to dance, or new to this form, find Cuban Salsa to be a joyful and social opportunity to rediscover a more easeful, natural way of being in their bodies. Cuban Salsa does not prescribe “style” but allows for discovery of the beauty and sensuality of each individual body in motion.

Creativity, playfulness, surprise, improvisation, connection with your partner and, most importantly, an active relationship with the music are some of the unique aspects of Cuban Salsa.

At the beginning stages, students focus on developing dance fundamentals (including rhythm, coordination, balance, and range of motion) and the specific artistic and technical aspects of Cuban Salsa (including body movement, basic steps and turn patterns, partnering technique, and the basic calls of Rueda de Casino). Later, in the more advanced levels, students who have mastered the fundamentals are ready to develop their artistry and personal style.

Dancing Salsa in a circle with multiple couples involves several elements or phases. The following explanation is not precision science. It’s simply offered as a helpful reference as to what happens in a Rueda.

The **First Phase** is composed of various **Start-up Moves** (Al Medio, Abajo, Exhibela, etc.). These moves get the Rueda going. Keep in mind that you don’t have to start a Rueda this way. You can start up in **Guapea** if you prefer (**Guapea** is discussed below).

The **Second Phase** involves transitioning the follow from the lead’s R to L using a **Dile Que No** (cross-body lead). This gets dancers into position to do various moves to be called during the Rueda. Follow’s position relative to the lead is always in relation to the couple facing the center of the circle.

The **Third Phase** is **Guapea**. Immediately after the leads transition the follows from R side to L side, the couples in the Rueda go into **Guapea**. In essence, **Guapea** is the Rueda basic. In **Guapea**, couples are dancing in a holding pattern, waiting for the caller to call the next move.

Salsa counts are in eights, one full eight-count for each basic. Cts 4 and 8 are always pauses, when no movements are made.

Footwork for the LEADER will always be:

L, R, L for cts 1, 2, 3, then pause on ct 4, and R, L, R for cts 5, 6, 7, and then pause for ct 8.

Footwork for the FOLLOWER will always be:

R, L, R for cts 1, 2, 3, then pause on ct 4, and L, R, L for cts 5, 6, 7, and then pause for ct 8.

Always mark your steps! Never are you doing anything without marking your steps. Everyone, lead or follow, should always be stepping.

Rueda is done in a circle. Dancers alternate between facing the center of the circle and facing a partner.

Salsa Rueda Terminology

*All calls except **Closed Position** and **Open Position** are accompanied by a specific hand gesture or gestures done with the caller's R hand. See photos of hand signals after this section.*

---- Salsa Basics ----

Open Position	Lead holds the opposite hand of the follow, L to R, R to L. Hand hold is palm down, fingers forward, lead hand on top of follow, with lead's thumb tucked into the palm of follow's hand.
Closed Position	R arm of the lead rests on the L shoulder blade of the follow; follow's arm rests along leader's arm and the L hand on leader's shoulder in a waltz-type of frame. Leader's L hand holds the R hand of the follow at about the shldr.
Guapea	(<i>gwah-PEH-ah</i>) The default movement to which dancers return between calls by the leader. Rhythm is "quick, quick, slow" (cts 1, 2, 3-4). Follow mirrors lead, who swings L hand down while stepping L-R-L (cts 1, 2, 3-4) and press gently on R hand while stepping R-L-R (cts 5, 6, 7-8). Leads step back on L and forward on R. Follows step back R and forward L.
Pise (stamp)	(<i>PEE-theh</i>) Stamp (ct 5) with follow's L ft, lead's R ft. Typically done during Guapea so that the caller can get all the dancers back on the beat together. <u>Note:</u> Some callers use the word "Suena" (<i>SWEH-nah</i>) meaning "sound."
Doble Pise (double stamp)	(<i>DOH-bleh PEE-theh</i>) Two Stamps (cts 5-6).
Hammerlock	A body position in which lead and follow face each other with the follow's L arm behind her/his back holding on to the lead's R hand. Follow's R hand holds lead's L in front of lead.

---- Calls for Direction Changes ----

Adentro (Inside) Not taught	(<i>ah-THEN-troh</i>) Move twd ctr. Can be done in Open Position or Closed Position .
Afuera (Outside) Not taught	(<i>ah-FWEH-rah</i>) Move away from ctr. Usually done Closed Position ; rarely in Open Position .
Atras (Backward) Not taught	(<i>ah-TRAHS</i>) Usually in Closed Position , lead backs up, follow steps fwd.
Camina or caminala (Walk or Walk it)	(<i>kah-MEE-nah</i> or <i>kah-MEE-nah-lah</i>) Using steps as in Guapea , move gradually CW around the circle. While maintaining contact with ptr through joined hands (lead's L, follow's R), look away from ptr and touch free palms with follow on the R (cts 1, 2, 3-4); look at ptr and touch free palms (cts 5, 6, 7-8).

---- Calls in which you keep your partner ----

Adios con la Hermana	See Prima con Hermana below.
Balsero Not taught	(<i>bahl-SEH-roh</i>) Lead follower across in front (cts 1, 2, 3-4); turn follower CW under joined hands (cts 5, 6, 7-8); lead follower behind (cts 1, 2, 3-4); lead follower across and turn CW (cts 5, 6, 7-8).
Echeverria	(<i>eh-cheh-veh-REE-ah</i>) Bend knees and twist away from ptr (on cts 7-8); twist on balls of feet three times so that knees turn twd ptr, then away, then twd (cts 1, 2, 3-4).
Fly or Un Fly (Fly ball as in baseball, not the insect)	(<i>FLY</i> or <i>OOHN fly</i>) On cts 5, 6, 7-8, look away from ptr and clap high above head at beginning of next meas (ct 1). The clap is done facing the person behind.
Doble Fly	(<i>DOH-bleh FLY</i>) Same as Fly but clap twice (cts 1-2).
Fly Abajo (Fly down)	(<i>FLY ah-BAH-hoh</i>) Same as Fly but clap low and away from ptr (ct 1).
With a Jump	Same as Fly but clap high while jumping (ct 1). Called after Fly or Doble Fly .
Fly Cintura (Cintura is waist or belt)	(<i>FLY seen-TOO-rah</i>) Same as Fly but lead claps w/ arms around neighbor's waist.
Rueda (Wheel) Not taught	(<i>roo-EH-dah</i>) Lead guides follow slowly across in front and into Closed Position (cts 1, 2, 3-4, 5, 6, 7-8) and continue moving CW, lead backing up with L-R-L (cts 1, 2, 3-4), R-L-R (cts 5, 6, 7-8) and following doing opposite ftwk. This walking is done with a bent-knee "down" emphasis on cts 1 and 3, then cts 5 and 7.

Sombrero (Hat) Not taught	(<i>sohm-BREH-ro</i>) From Open Position lead switches hand positions to R on top of L, connecting hands as if shaking hands (cts 5, 6, 7-8). Lead steps back while guiding follow in front on an inside circle (cts 1, 2, 3-4). Lead continues to lead a CW turn for follow until follow is facing lead again on lead's R (cts 5, 6, 7-8). Simultaneously raise both arms so one arm is across lead's shoulders and the other around follow's shoulders (cts 1, 2, 3-4) and with Dile que no while finishing (cts 5, 6 7-8) into Guapea .
Vasila (or Vacila) (Joke or tease)	(<i>vah-SEE-lah</i>) Starting from Guapea , lead guides the follow. Keeping joined hand low at follow's waist in front of lead (cts 5, 6, 7-8), lead guides follow in front (cts 1,2,3-4,5) and pushes off with L hand to guide follow into a 1½ revolution free spin. Follow spins almost in place with two steps R, L (cts 6, 7-8). Lead maintains curving open arms to provide a frame for follow's turning, to connect with Dile que no on the lead's R.
---- Calls in which leads take follow on the right ----	
Adios (Goodbye) Not taught	(<i>ah-thee-OHS</i>) Starts with "back spot turn" (in a ballroom-type hold). Throw follow's R arm overhead on cts 7-8. Lead goes under R arm to next partner on R on cts 1, 2, 3-4 as usual. Dile que no to resume basic.
Dile que no (Tell him no)	(<i>DEE-leh KEH NOH</i>) Cross-body lead. This step is used many times during Rueda to get back to the Open position . In a Closed Position , follow steps R bkwd, swinging L knee slightly across body (simulates a woman blocking a man's advances) while lead steps fwd on L on ct 1. Lead pushes gently with R hand at small of follow's back, while guiding with L to bring follow in front to lead's left side to take Open position (cts 5, 6, 7-8).
Dame una (Give me one)	(<i>THAH-meh OO-nah</i>) As lead and follow mark cts 5, 6, and 7, each prepares to do a half-turn to face the person behind them on ct 7; leads half-turn over R shldr; follows turn over L shldr. Leads connect to new partner on R in Closed Position to finish off with a Dile que no .
Dame con una Not taught	Same as Dame but with a clap on ct 7.
Dame con dos Not taught	Same as Dame but with two claps on ct 7.
Enchufila (Plug in) Also Enchufe and Enchufa	(<i>ehn-CHOO-flah</i>) Lead steps back (ct 1), raises L hand holding follow's R, turns follow CCW (this is an inside underarm turn) while pulling lead R to exchange places, ending facing each other (cts 2, 3-4); keep the elbows bent! Then lead pulls gently to travel on an inside circle to next partner (cts 5, 6, 7-8) to do a Dile que no .
Enchufila Catch	(<i>ehn-CHOO-flah kach</i>) Do an Enchufila underarm turn (cts 1, 2, 3-4); lead stops follow's turn on ct 5 (the "catch") by placing R hand on follow's upper back. Turn follow in the opp direction (cts 6, 7-8); follow steps back into pos on lead's L side. <u>Note</u> : Lead and follow both step back on ct 5.

Salsa Rueda Terminology — continued

Doble Enchufla (Double Plug) (also Enchufla Doble)	(<i>DOH-bleh ehn-CHOO-flah</i>) Do an Enchufla Catch followed by a regular Enchufla.
Enchufla con mambo (Plug with mambo) Not taught	(<i>ehn-CHOO-flah kohn MAHM-boh</i>) Like Enchufla but instead of using cts 5, 6, 7 to get to a new ptr, both lead and follow mark cts 5, 6, 7 in front of each other and use mambo steps to get to new partner. A Mambo step is FOUR steps (instead of three steps) while moving twd new ptr. Leads step L, R, L, R and follow, tap R, L, R, L. Finish with Dile que no .
Setenta (Seventy)	(<i>seh-TEHN-tah</i>) Lead and follow face and do a back step to join hands (ct 1). Lead raises L arm and guides follow into an outside turn, stepping around to switch places (follow turns on an inside circle), ending up in a Hammerlock (cts 2, 3-4, 5, 6, 7-8). Without releasing hands, continue with an Enchufla (cts 1, 2, 3-4). Releasing lead's L hand and follow's R, lead raises and turns under joined hands (cts 5, 6, 7-8). Continue with one more Enchufla exchanging places (cts 1, 2, 3-4); three steps in place (cts 5, 6, 7-8). Finish with Dile que no .
Prima (Cousin) Not taught	(<i>PREE-mah</i>) Leads and follows start with a back step to come together close for cts 1, 2, 3 to spin around and switch places for cts 5, 6. On ct 7, lead goes past follow, under follow's arm to switch to a new ptr. Finish with a Dile que no with a new partner.
Prima con hermana (Cousin with sister)	(<i>PREE-mah kohn ehr-MAH-nah</i>) From Guapea , lead raises joined arms overhead and steps diag R into ctr on cts 7-8. Lead turns CCW under joined arms into an inside circle, stepping back on L to do an Enchufla , exchanging places (cts 1, 2, 3-4); dance three steps in place (cts 5, 6, 7-8), and finish with Dile que no . <u>Note:</u> Some callers use the phrase "Adios con la hermana" (<i>ah-thee-OHS kohn la ehr-MAH-nah</i>) meaning "Goodbye to the sister".
Tarro Not taught	(<i>TAHR-roh</i>) From Closed Position , often from Rueda, leader raises L arm, follower remaining in place (cts 1, 2, 3-4); leader steps fwd under R arm of follow to next follow CCW.

---- Calls in which lead takes follow on the left ----

Dame Directo (Give me directly)	(<i>DAH-meh dee-REHK-toh</i>) Unlike Dame in which the switch is with the dancer behind, each dancer moves to the next person in front around the circle. From Open Position , lead pulls follow past from L to R on the inside of the circle (cts 1, 2, 3-4), as lead goes on the outside traveling CW (not CCW) to connect with new follow (cts 5, 6, 7-8).
Dame Loca (Give me crazy)	(<i>DAH-meh LOH-kah</i>) Same as Dame Una but instead of turning right away, leads step L fwd with a clap (ct 1), step R in place with a clap (ct 2), step L next to R (cts 3-4); follows step R bkwd (ct 1), step L in place (ct 2), step R next to L (cts 3-4). On cts 5, 6, 7-8, lead does follow's ftwk and follow does lead's ftwk. Finish with Dame Una .

Gradišće Dances

(Austria, Hungary)

Burgenland Croats (Gradišćanski Hrvati) are a Croatian minority in the Austrian state of Burgenland, and on the borders of Hungary and Slovakia. Although this enclave is hundreds of kilometers away from their original homeland, they have managed to preserve their culture and language for about 500 years. According to estimates, there are approximately 50,000 Burgenland Croats. In former times this was part of Western Hungary and since 1921 Burgenland has been part of Austria. In all these years the music of the surrounding great nations has had a very strong influence on the music of the Croatian minority living there. We see in their dances and songs many czardas and Hungarian melodies and, in recent years, many waltzes and polkas have been added. Included are two dances featured below, “Četarski muži” and “Mila moja.” The research was done by Željko Jergan in 1982-84 and 1991-92.

Lyrics for Četarski Muži

Vi četarski muži, vi četarski muži, zeti i ditići,
 Šenicu ukrali, šenicu ukrali, krčmaru prodali.
 Što su za nju zeli, 'se za vino dali,
 što su za nju zeli, 'se za vino dali, 'se za vino dali.

Men from the village of Četar stole wheat
 And sold it to the owner of the bar.
 All of the money they got for the wheat
 They immediately spent on drinking.

Lyrics for Mila Moja Vino Toči

Mila moja vino toči ona ima črne oči.
 Ej haj, mlada rožica, stokrat ću te ljubiti od srca.
 Oči su kot ternulice, a rumeno je nje lice.
 Tanka lica kot rožica, sve b` junake obljubila.
 I onoga gospodina, ki sam svoju gospu ima.

My love has black eyes and rosy cheeks.
 She loves all the boys – but I love her all the same.

Međimurje is an area within the Drava River basin in Croatia. Situated on the northernmost edge of Croatia, Međimurje currently shares borders with both Slovenia and Hungary and is also very close to Austria. Its western border meets the foothills of the Alps while its eastern edge touches the Pannonian plains. The name Međimurje, taken from the words “međi” (between) and “mor(j)e” (sea), means “between the seas.” Over the centuries the area has been ruled by various nation-states such as the Austro-Hungarian Empire. The music, cuisine and even the language of the area is rich with cultural influences from its neighbors, predominantly Hungary. While musical accompaniment at one time was by “cimbalom” and “gusle,” the tamburitza orchestra and violin

accompany today’s dancing and singing. Željko researched dancing throughout Međimurje beginning in 1972.

(Croatia)

For the people of Hrvatsko Zagorje, in the northwestern part of Croatia, singing and dancing is an integral part of their customs. There is a core of one of the three main Croatian dialects there, called “Kajkavian” (kajkavski). Dancing is mostly done at church festivals and fairs, and for various celebrations in connection with Green George traditions, Christmas and Easter, weddings, and particularly the Carnival. Still today, you can hear beautiful songs echoing from hill to hill across Zagorje, which translates from behind the hills. Željko has done research in Zagorje since 1974.

Cheerful and spirited dances followed by songs or tamburitza playing, as well as women's folk costumes decorated with embroidery and other decorations, are characteristic of this region. Pet Je Kumi

(Croatia)

Medimurje is in the far northwest corner of Croatia. This flowerbed of Croatia, cradled between the Mura and Drava rivers, is an area abundant with musical and dance tradition. The humble villager found a way to express the most important values of his existence through thousands of recorded songs. These songs reflect the daily life of the people — work in the house, in the farmyard, and in the field, the joys and sorrows that are the inseparable companions of life. All this leaves telling marks on the songs and dances of a nation. Željko has done research throughout the Medimurje region since 1972.

Prosijala

(Croatia)

The song “Prosijala sjajna Mjesečina” is sung in the Bilogora region (*map left*) in the village of Stara Diklenica and in the Moslavina region (*map right*), with a small difference. In the old days people sang and danced along with instruments such as “tambura samica” (solo tamburitza), “frulice” (duct flute), and “gajde” (bagpipe), while today a dance is usually followed by tamburitza players. Željko Jergan first researched this region in 1976 and continues to research to this day.

Sviračko Kolo

(Croatia)

Centuries of migration of various people to the region of Vojna Krajina, the military frontier near the town of Slunj, helped set the stage for a traditional way of life, specifically one focusing on the traditions of the people. In the past, on Sunday afternoons in the village gathering place, the people from the region of Kordun assembled. With plenty of good wine, they danced and sang late into the night. Through songs they sent each other messages, taunted or teased one another, and shared feelings. In Cetingrad the dance is accompanied by one tamburitza instrument called “samica” (danguba, kozarica) or the entire tamburitza orchestra.

Around the old ruins of the city of Slunj is the best place to enjoy life as a bachelor.
 The bachelor who doesn't have women is crazy, and even crazier if he doesn't change them often.
 I wouldn't love the city of Cetingrad if I was not born there.
 Do not be sorry, my dear, when my wedding party wakes you.

Zagorski Tanec

(Croatia)

As praised in songs and painted in pictures, Zagorje is the most beautiful and romantic part of the Croatian continental region. Croatian people usually refer to this region as “Zagorje,” literally “beyond the mountain.” However, due to a nearby “Zagorje ob Savi” municipality in Slovenia which bears the same name, the Croatian part is disambiguated by being called Hrvatsko Zagorje, or “Croatian Zagorje.” “Zagorski Tanec” or “Svatovsko Kolo” (a wedding dance) is from the village of Nedeljanec by the city Varaždin where Željko was born.

THE DANCES OF THE ALBANIAN PEOPLE

Pogonishte

(Çamëria, Albania)

Pogonishte (or Valle Pogonishte) is by far the most common and most important folk dance in Albania. It is danced to both slow tempi and faster tempi. It is clearly related to the Greek *Sta dyo* style *Syrtó*. Previously it was most associated with Southern Albania (Tosk region) and especially with the Çam region (Çamëria), but is now danced all over Albania.

Pogon is a valley in the southern part of Albania and consists of mainly Greek villages and just one or two Albanian villages in the Albanian part of the valley. The valley is divided in two by the Albanian-Greek border. The village of Pogoni in Greece consists of a combination of several villages and was named Pogoni later in history.

They are not guests at the wedding and won't stay.

The back is slightly bent as they move in through the doorway in order to show respect to the host. The figures in the dance symbolize the showing of the presents they got on their wedding. Glossary of Scottish Dance Terminology

In Scottish dancing, the body is held erect but not stiff, with the chest high, arms held naturally at sides. All dancing is done on the balls of the feet with knees turned out. There is a lot of eye contact. Courtesy and helpfulness are essential. When inactive, dancers stand in place with heels together and toes apart, remaining alert and ready to assist the active couple.

Joined hands are held at about shoulder level. The correct hold for leading and turning with one hand is the handshake hold. When a fast turn is done, the elbows are well bent and kept close to the body. On a longer turn, the arms are held easily extended.

Advance: Move fwd.

Allemande: 8 meas. Danced by two couples, first couple followed closely by second couple for first 4 meas. M's raises joined R hands next to W's R shldr while joined L hands are slightly lower, nearer to waist level.

Meas

- 1 Dance diag fwd R;
- 2 Turn $\frac{1}{4}$ CCW to face M's side of the dance and move fwd ctr;
- 3 Dance across the dance and turn $\frac{1}{4}$ CCW to face down;
- 4 Dance a long step down on M's side;
- 5 Both cpls turn $\frac{1}{4}$ CCW into ctr to form a line facing W side;
- 6 Dance twd ctr while W turns $\frac{1}{2}$ CCW under M's R arm to face ptr, both hands still joined.
- 7-8 Release hands and dance bkwd into own place.

Allemande Hold

Allemande Hold: M's raises joined R hands next to W's R shldr while joined L hands are slightly lower, nearer to waist level.

Bow and Curtsey: Used at the beginning and end of each dance. M bow from the waist, back straight, hands hanging easily at sides while looking at ptr. W take a tiny step sdwd (or fwd), bring toe of L close to heel of R and bend both knees. Keep body erect and look at ptr. Return to easy standing position. W's skirt may be held between thumb and middle finger, elbows kept almost straight, and wrist bent fwd a little.

Cast: An individual turn outward to dance up or down behind own line to designated place. Also Cast Down, Cast Up, Cast Off and Slow Cast.

Chase: One or more dancers follow a leader with the designated traveling step. Sometimes this is done in a circle, other times in a pattern weaving among other dancers.

Diagonal Reel of Four: See Reel of Four. Figure is done diagonally across the set. Example: 2nd M and 2nd W stand back to back in the middle facing 1st W and 3rd M respectively.

Glossary of Scottish Dance Terminology — continued

Espagnole: A method of progression, danced by two Cpls, using eight travelling steps in eight meas.

Meas

- 1-2 1st W and 2nd W join R hands and dance twd M's side, passing between their ptrs. W on R leads W on L to progressed place. Meanwhile 1st M and 2nd M dance across to the W's side, passing on the outside of their ptrs.
- 3-4 1st M and 2nd M join R hands and dance towards the M's side, passing between their ptrs. On meas 4, M on R leads M on L across to progressed place. Meanwhile 1st W and 2nd W dance across to the W's side, passing on the outside of their ptrs.
- 5-8 2nd cpl joins R hands and rotates once CW while 1st cpl joins L hands and rotates once CCW.

Figure Of Eight: 8 meas. Formed by 3 persons basically, only one of whom is active, the other two standing in place. Active dancer loops in one direction (either CW or CCW) around one inactive person (4 meas) and then in the other direction around the other inactive person (4 meas). Skip Change of Step is used throughout.

In many Scottish dances one couple dances the Figure of Eight around another couple. Then there are really two separate Figures of Eight being formed – one by the active W, and another by the active M. The two separate Figures of Eight always go in the same direction, the W dancing one of the loops while the M dances the other, and then they exchange loops. The active W always crosses in front of her partner as she goes between the inactive couple to begin her loop around, and the M always crosses over behind her.

Half Diagonal Reel of Four: See Reel of Four and Diagonal Reel of Four. Only the first four meas of the figure are danced. Dancers in the center will have exchanged places; dancers on the outside will have exchanged sides.

Half Figure of Eight: See Figure of Eight. The active dancer dances around only one other person. If a couple is doing a Half Figure of Eight, each will end the movement in the other's position.

Half Reel of Four: See Reel of Four. Dance only the first 4 meas. Dancers in the center will have exchanged places; dancers on the outside will have exchanged sides.

Hands Round and Back: Sixteen Slip Steps in eight meas, although it is acceptable to dance seven Slip Steps and close with feet pointing in opposite directions, heels touching. This formation always forms a circle and can be danced by three, four, six or more dancers. The circular pattern is maintained throughout the formation. The circle is usually danced to L and then to R. All dancers begin with the L ft.

Meas

- 1 Dancers move on a curve to L (CW) and begin to join hands in a circle.
- 2-4 All continue dancing around the circle CW. To prepare for the direction change at the end of meas 4, there is a slowing down of the momentum of the circle and heels are brought gently together.
- 5-6 All move to R (CCW). At the end of meas 6, dancers at the top and bottom of the circle release hands while the others usually retain hands.
- 7-8 All continue to dance out on the curve to finish on the sides.

Glossary of Scottish Dance Terminology — continued

Longwise Set: Cpls stand in two lines, a line of M facing a line of W, ptrs facing, M L shldr toward music. Cpls are numbered, with 1st Cpl at head of line.

Pas de Basque: Leap onto R, knee and toe turned out (ct 1); step on ball of L beside R with L heel to R instep and L toe turned out (ct 2); step R extending L diagonally forward L, toe pointing down an inch or two off floor, knee straight and turned out (ct 3); pause (ct 4). Step alternates.

Promenade Hold: With hands crossed in front, R over L, M holds W's R hand in his R, and W's L hand in his L. Arms are held away from the body, comfortably above waist level. The M leads with joined R hands.

Retire: Move bkwd.

Reel of Four: Eight meas. A figure for four dancers, two dancers standing back to back in center facing out towards other two dancers, who face in.

Meas	Dancers facing out	Dancers facing in
1	Pass R shoulders with facing dancer.	Pass R shoulders with facing dancer.
2	Curve to turn ½ CW and face in opp direction.	Pass L shoulders in ctr.
3	Pass R shoulders with next dancer.	Pass R shoulders with next dancer.
4	Pass L shoulders in ctr.	Curve to turn ½ CW and face in opp direction.
5-8	Repeat action of meas 1-4 back to orig place.	Repeat action of meas 1-4 back to orig place.

Reel of Three: 8 meas. A figure for three people in a line, the ctr dancer facing out, and outside dancers facing in. All three people are active and describe on the floor a pattern of a Figure of Eight, consisting of two loops, one loop being made CW and the other being made CCW. All 3 dancers do this figure in the same direction, as in "follow the leader." A Skip Change of Step is used throughout.

In an ordinary R shoulder Reel of Three, the center dancer (#1) always begins curving CW to pass R shoulders with the dancer he/she is facing (#2), who also curves CW, while the remaining dancer (#3) curves CCW (see diagram). Dancer 2 cuts through the ctr before Dancer #3. Each half loop takes approximately 2 meas. At the end of meas 4, all dancers should be halfway through the figure. Dancers #2 and #3 will have changed places, and Dancer #1 will have returned to the middle. At the end of meas 8, all dancers will be back in original places.

Set: Pas de basque R and L. Whenever someone sets to you, you always set also.

Glossary of Scottish Dance Terminology — continued

Set and Link: A method of progression danced by two Cpls, using two Setting Steps and two Travelling Steps, and four meas of music. Begins on the sides.

Meas

- 1-2 1st M and 2nd M and 1st W and 2nd W *set* with nearer hands joined.
- 3-4 1st W casts down to second place while 2nd W dances inside the set up and around to the R in a curve into first place. 2nd M casts up to first place, 1st M dances inside the set down and around to the R in a curve into second place. Hands should be retained as long as is comfortable during meas 3.

Slip Step: Step sideward L to L with heels raised and toes turned out (ct 1); step R next to L with heels touching and toes still turned out (ct &). Movement should be light and easy, with no shuffling noise. May also begin R to R. Usually two per meas and usually danced in a circle.

Skip Change of Step: Hop L lifting R forward with toe pointing down, knee turned out (ct & before ct 1); step forward R (ct 1); step L close behind R, L instep close to R heel (ct 2); step fwd R (ct &). Repeat with opp ftwk.

Strathspey Setting Step: 2 meas. Step R to R, knee and toe turned out (ct 1); step L close behind R, L instep to R heel (ct 2); step R to R again (ct 3); hop on R while bringing L up behind R ankle, L knee turned out and toe pointing down (ct 4). Repeat action beginning L to L.
A complete Strathspey Setting Step moves to R, then L.

Strathspey Travelling Step: Keeping foot close to floor, step fwd on ball of R (ct 1); step L close behind R, L instep to R heel (ct 2); keeping foot close to floor, step fwd R, bending R knee slightly (ct 3); hop on R, bringing L forward passing through close to R, toe pointing down and close to floor, knee turned out. Repeat with opp ftwk.

Two-Couple Knot: Eight travelling steps in eight meas. This is a figure for two cpls and is a method of progression.

Meas

- 1-2 Joining R hands, 1st and 2nd cpls turn ptr half-way round to finish in the middle facing down, each W turning R under ptr's arm into *Allemande Hold*.
- 3-4 2nd Cpl, followed by 1st Cpl, curve round and dance up the W's side, releasing R hands at the end of meas 4.
- 5 M continue to dance up the W's side, while guiding ptr across in front of them. The W take a long step towards the middle.
- 6-8 Releasing the R handhold, all continue to turn with the L hand to own side, having changed places with the other cpl.

Burns Night

(Scotland)

Around the world, tributes to the Scottish poet Robert Burns are held through the ritual of the Burns Supper. Originally started a few years after his death by a group of his friends and acquaintances, to honor his memory, the suppers are now celebrated annually on the date of his birth, 25th January.

This dance was devised by Robert McOwen to go with the tune by Barbara McOwen. The dance and tune commemorate the series of Burns Night concerts produced by the Royal Scottish Country Dance Society ("RSCDS") Boston Branch at Saunders Theatre in Cambridge, Massachusetts, from 1979 to 1994.

The Falls of Rogie

(Scotland)

Rogie Falls are a series of waterfalls on the Black Water, a river in Ross-shire in the Highlands of Scotland. The falls are about 1.2 miles northwest of the village of Contin. They are a popular tourist attraction, with several forest walks.

The bridge will support a maximum of five people at one time, with narrow, sharp steps at its end. Photography from the bridge is possible, but is best at evening time when fewer people are around, or in sunnier conditions when shorter exposure times are possible, due to the high degree of wobble!

Batscher aus Welden

(Bavaria, Germany)

This dance was presented by Reinhold Frank at the 18th Folk Dance/Folklore Festival of the American Federation of German Folk Dance Groups hosted by the Alleweil Jung German Dancers of the Lancaster Liederkrantz in 2013. Original source material: “*Giebele Gabele, Tanze aus dem bayrischen Schwaben und dem schwabisch-alemannischen Sprachraum*” Arge der schwabischen Volkstumsgruppem, Kempten 1989.

Welden is in the Augsburg district of Bavaria. “Batscher” has a number of meanings: the one that applies in this case is that it’s a form of clapping dance. An alternate spelling (for example, in Baden-Württemberg) is “Patscher.” Another meaning is “a person who’s clumsy or weird.”

Music: 2/4 meter *German Folk Dances*, Track 3

Formation: Cpls standing face to face around a circle, M with back to ctr.

Steps & Styling: Walking steps and polka steps.

Böhmischer Ländler

(Bavaria)

Böhmischer Ländler or Bohemian Ländler, is also known as Ein Steirisher Aus Dem Bohmerwald, meaning “A Steirischer (a type of dance) from the Bohemian Forest.” Each area has its own particular ländler dance consisting of a number of figures common to all, but always with one figure not to be found in any other ländler. In the Böhmischer Ländler that special figure is the “Embrace.” This dance was introduced at the 1967 Stockton Folk Dance Camp by Walter Kogler.

Pronunciation: BIR-mish-er LEHND-ler Translation: Bohemian Ländler (dance form)

Music: 2/4 meter [Video](#) *German Folk Dances*, Track 6

Formation: Cpls in a circle facing CCW. W is to right of M. Inside hands are joined at shldr ht. Outside hands may be placed on hip.

Steps & Styling: Ländler Step: A smooth walking step with a flat-footed look, but without wt on heels, one step to each beat of the music, with only slight accent on first ct of each three-beat meas. The term Ländler Step will be used here to describe three walking steps in one meas of music.

Meas 2/4 meter Pattern

INTRODUCTION

- 1-4 No action
- 5-6 Swing joined hands fwd (meas 5) and bkwd (meas 6).
- 7 M stand in place as W turn once CW under raised, joined hands, with three steps (R, L, R).
- 8 No action

I. MOVE FORWARD, THEN W TURN

- 1-8 Beg M's L and W's R, cpls move CCW with eight Ländler Steps.
- 9-10 With two Ländler Steps, cpls continue to move CCW, M moving straight fwd as before while W turn once CW under raised, joined hands.
- 11-16 Repeat meas 9-10 three times.

II. URNS WITH HIPS ADJACENT

- 1-8 Ptrs join both hands straight across, and turn ¼ to own L so that R sides are adjacent. R arm is extended in front of ptrs' chest. L elbow is bent at shldr level, with L hand near own L shldr level; cpls turn CW dancing eight Ländler Steps.
- 9-16 Keeping hands joined, ptrs make a half-turn R, so L sides are adjacent and arm positions are reversed, and turn CCW with eight Ländler Steps.

Böhmischer Ländler — continued

III. SINGLE YOKE

1-8 Ptrs raise W's L and M's R joined hands above head and make a half-turn L so that R sides are adjacent. Lower W's L and M's R joined hands are lowered behind W's neck, with the other hand in front of M's chest. Cpls rotate CW with eight Ländler Steps.

9-16 Ptrs raise joined hands and make a half-turn R so L sides are adjacent. Lower joined hands (W's R and M's L) behind W's neck with the other hands extended across M's chest. Rotate CCW with eight Ländler Steps.

Single Yoke

IV. DOUBLE YOKE

1-8 Ptrs raise joined hands and make a half-turn L so R sides are adjacent. Each place L hand, joined with ptr's R, behind own neck. Cpls rotate CW with eight Ländler Steps.

9-16 Ptrs raise joined hands and make half-turn R so L sides are adjacent. Each place R hand, joined with ptr's L, behind own neck. Cpls rotate CCW with eight Ländler Steps.

Double yoke

V. WINDOWS

1-8 Ptrs release hands and rejoin them, R with R, L with L, R arm over L. W turn 1½ CW in place under raised, joined hands as M dances in place to form a small window, R hips adjacent. R upper arms are held together with W's arm resting on M's arm. Joined L hands are lowered to rest on "sill" created by the upper arms.

5-8 M and W peek at each other through the triangular shaped "L-hand window" just formed, as they rotate once CW with four Ländler Steps.

9-12 W turn 2½ times CCW under joined hands held high to form a small window as M dances in place, ending with L hips adjacent.

13-16 Cpls lower joined R hands to rest on the "sill," and ptrs peek at each other through the window as they rotate once CCW with four Ländler Steps.

Window

VI. EMBRACE

- 1-8 W make a half-turn to face same direction as M, both facing CCW with W in front of M. M lowers joined hands over W's head to her waist. Her arms are now crossed in front of her, and his arms are crossed at her back. Cpls move fwd CCW with eight Ländler Steps as they look at each other, first over W's L shldr (meas 1), then over W's R shldr (meas 2), etc.
- 9-16 Raising joined hands above W's head, M moves to W's L side while lowering his L arm to his waist. Both are still facing CCW. M ducks under joined R hands which are lowered to his waist. M arms are now crossed in front of him, and W's arms are crossed at his back. Ptrs move fwd (CCW) with eight Ländler Steps, looking over M's shldr at ptr in same manner as in meas 1-8.

Embrace with W in front.

VII. SKATING POSITION TURNS

- 1-8 M raises joined hands over his own head and lowers them in front bringing W up to his R side. R hands are over L. Cpls rotate in place CW with eight Ländler Steps, M moving fwd, W bkwd.
- 9-16 Still keeping hands joined, ptrs turn in toward each other to face opp direction such that W is to L of M. Cpls rotate in place CCW with eight Ländler Steps.

Skating position.

VIII. TURNS WITH HIPS ADJACENT

- 1-16 Ptrs release hands, face each other, and rejoin hands straight across, and repeat action of Fig II.

IX. LÄNDLER PROMENADE

- 1-14 Join M's L hand and W's R hand on M's left waist; M's R hand and W's L hand are behind W's back. Dance 14 Ländler Steps, moving CCW while rotating CW as a cpl.
- 15 W turn once R under M's L and W's R joined hands.
- 16 M bow and W curtsy to end dance.

Closed position.

Sequence: Dance is done once as notated above.

Dreischritt Dreher

(Germany)

This dance is a close relative of the Swedish hambo and the Polish powolniak. It is indigenous to southern Germany where it is also known as 'Gallop Pivot' or 'Gallop Dreher.' The appeal of the dance lies in the syncopation of music and step. The music used is in 2/4 time, while the dance-phase requires three counts. The Dreischritt Dreher is always danced in CW rotation, never CCW, and is often the last dance of the evening. However, it also occurs as part of other dances. Good dancers manage to stay almost in place. It is said that people tried to dance on a large wooden platter or under the lamp and to not to travel at all. The following description is the most commonly seen form. There are other ways of dancing Dreischritt Dreher, and the dance is often done alternating with a clapping pattern.

Pronunciation: DRY-shriht DRAY-her Translation: Three step turning dance

Music: 2/4 meter [Video](#) *German Folk Dances*, Track 15

Formation: Cpls dancing almost in place around a dance floor.

Steps & Styling: This dance is traditionally done freestyle, the figures done for as many measures and in whatever sequence the cpl desires. M usually takes the lead in deciding the sequence. With the music specified, it is convenient to begin the dance with Fig I, and alternate between Fig I and 16 measures of Fig II, Fig III, or Fig IV.

<u>Meas</u>	<u>2/4 meter</u>	<u>Pattern</u>
	I.	<u>CLAPPING</u>
1-2		With ptrs facing, clap thighs (ct 1), clap own hands (ct 2), clap R hands with ptr (cts 3-4).
3-4		Clap thighs (ct 1), clap own hands (ct 2), clap L hands with ptr (cts 3-4).
5-8		Clap thighs (ct 1), clap own hands (ct 2), clap R hands with ptr (ct 3), clap L hands with ptr (ct 4), clap thighs (ct 5), clap own hands (ct 6), clap both hands with ptr 3 times (cts 7, &, 8).
9-16		Repeat meas 5-8.
	II.	<u>WALKING</u>
1+		In order to get into the turning pattern, M can lead his ptr in front of him. He moves fwd L-R-L-R while W moves bkwd R-L-R-L. At the end of the sequence, cpls either open up into side-by-side formation facing CCW to do Fig II, get ready to start the turning pattern (Fig IV) or continue Fig. I for additional measures.
	III.	<u>WALKING SIDE-BY-SIDE</u>
1+		Cpls walk four steps side-by-side, beginning on outside ft and then turn toward each other to take closed pos. Beg turning or continue this pattern for additional measures, or go back to Fig I.

IV. THREE-STEP DREHER

Because this ftwk falls across the measures, it is easier to notate based on counts. M's and W's steps are the same, but at different times. Dancers turn CW but move CCW around the room. One time through the pattern takes 1½ measures so twice through takes 3 measures. This part of the dance is done with the M's hands on the W's upper back, and the W's hands on the M's back.

W'S STEP

1, 2, 3 With wt on L, touch R next to L (ct 1); step R (ct 2); step L (ct 3).

M'S STEP

1, 2, 3 Step L (ct 2); touch R next to L (ct 2); step R (ct 3).

Rühler Springer

(Thüringen, Germany)

This is probably the best known dance in Thüringen. Even though the Rühlers, citizens of the town of Rühla near Eisenach, insist that this dance is theirs, there is hardly a dance group in Thüringen that does not have the Rühler Springer in its repertoire. We can conclude from several historical written sources that the Rühler Springer was danced very differently at different times. The form described by Schlothauer in 1930 (provided below) is already a refined, polished variation of the Rühler Springer. Other variations notated at a later date are also provided below.

Pronunciation: ROO-ler SHPREENG-er

RÜHLER SPRINGER: Historical Notes

Naturally, the historical accounts of the 'Rühler Springer' do not give us an exact step description, but they do give us an insight on how energetically and exuberantly our forefathers danced. The following is from the "Thüringische Vaterlandskunde" 1801.

"In the past, there was in Ruhla a particular dance set to special music, that was danced at festive occasions and known in the entire area as the 'Rühler Dance'. But since the Ruhlaers developed a taste for English and other fashionable dances, their dance became a stranger to them and only a very few still know how to dance it. The dance distinguishes itself from other common German folk dances in that, after one danced several times in a circle, the man with his right hand behind her back, grasped his partner's peblum or the waistband of her skirt, and placed his left at his waist. In this position he jumped up with bent knees on the third beat of each measure. Landing with both feet, he stamped the ground so loudly that, when several couples danced together, it was possible to hear the sound of the stamping further than the music. The dancers alternated with that and the usual turning around the circle, as long as the musicians felt like fiddling and blowing the music that belonged to this dance."

According to the above description, the "Rühler Springer" might have been danced like this:

Couples in closed hip-shoulder position. W begin R, men L. Turning, they dance 2 step-hops on each foot for 16 or 32 measures. Couples in open position: facing LOD. Both begin R: Hop-steps, or step-swing steps fwd in LOD.

Meas. 1 R/R

2 L/L

3,4 Man steps on R and swings himself once around woman who assists him with her arm and hip.

Repeat this sequence for 16 or 32 measures.

In 1813 we read in "Versuch einer Beschreibung der Sachsen-Gothaischen Lande"

"The dancers dance alternately first on one foot, then on the other, lifting the other foot up, usually for a whole measure; the hands by which they hold each other are raised head high and the free hand is placed on the hip. After that, they dance alongside each other in the same way, lifting first one then the other leg high; and, placing both hands on their hips, they dance so that they keep each other in full view. Finally, all group themselves into a long row, men and women alternately, grasp each other by the waist, one behind the other, and hop on the same foot forward.

one after the other; when this last is executed it seems as if the house is about to collapse. This dance which is difficult to describe and must be seen, is danced more and more seldom and now only at very festive occasions and even then more as a joke..."

Out of this description we can reconstruct the following:

Partners side-by-side. Inside hands joined, bent and raised head high.

Step-hop or step-swing steps fwd. 16 measures.

Release hold, continuing forward as above. 16 measures. Continue as above, but couples link up by placing hands on waist of person in front. Continue until music stops.

Weiss-Blau

(Bavaria, Germany)

Although this dance is played in 2/4 meter throughout, it is a form of Zwiefacher, i.e. a two-step and pivot step dance alternating in a repeating pattern.

“Weiss-Blau” refers to the colors of the Bavarian flag. The flag is white-blue, not blue-white.

Pronunciation: VYHS-blau

Translation: White-blue

Music: 2/4 meter [Video](#)

Music not provided during Camp. This is being researched and a source for the music will be indicated here when one is located.

Formation: Couples in Ballroom pos scattered around the dance floor.

Steps & Styling: Note: Because the ftwk falls across the measures, it is easier to notate based on the counts. It takes 14 counts (7 meas) to complete one cycle of the dance which totals 18 steps. Cpl rotates CW throughout the dance.

NOTES

Contras and Squares

Square Dance and Contras – A Comparison

Both Contra Dancing and Square Dancing have their roots in dancing from the British Isles where, if people went to a ball, they needed to know “all the latest steps.” However, in the English colonies, there weren’t enough dancing masters to go around. Someone figured if you yelled out the figures, no master was needed. Hence the birth of Dance Calling.

Modern Western Square Dance (MWSD) usually dances to recordings and at a party or dance you are expected to know the figures and thus not need a walk-through or a teaching of the dance. MWSD holds classes and has “levels.” Whenever a square is announced, the “level” is also announced, and dancers are discouraged from dancing in squares that are beyond their “level,” with unfamiliar figures.

At MWSD events, contra dances and traditional squares dances are always taught prior to the dance. Everyone is welcome; no experience is necessary. We tend to favor live music, and expect our callers to adjust their program to make it fun for everyone.

Because MWSD dances are called, what a dancer needs to know to become an expert are the names of the figures, how they are danced, how a dance progresses, and how to identify the people with whom they are to interact. Contras and traditional squares have many figures in common, although each form has a few figures not found in the other. Also, the arrangement of the dancers is different in squares and contras, and often the timing is different.

Format of a Contra: Most contra dances are done in a longways set of couples in what we call “minor sets” of two couples. You do a set of figures with this couple, and when you’re done, you’ve traded places, and you go look for the next couple to repeat the same set of figures. The figures are timed to the music, and everyone in the hall does the same thing at the same time. One time through a dance is one time through a tune. Since the same set of figures is carried out with every new couple, as dancers learn the dance, the caller may stop calling and let the music take over.

Format of a Square Dance: Square dances are done in groups of four couples. Sometimes you change partners during the square; sometimes you keep the same partner. Since squares dances are not always timed with the music in the same way contras are, callers can add or subtract figures, and listening to the caller is more important during the course of a square dance.

For both contra dance and square dance, the basic footwork is a walking step in time with the music – that is, stepping on each beat of the music. There are two figures that use a different kind of footwork. One is the Balance: a four-count move with a step-swing or a step-touch. The other figure is the Swing, where some use a walking step, but most people use a buzz step.

All of the *traditional* contra dance descriptions provided here come from the Country Dance and Song Society (CDSS) publication *Cracking Chestnuts* (2008) and are used with permission from the publisher.

INTRODUCTION, BREAK, AND ENDING

Join hands, form a ring, circle to the left like everything
 Now reverse back in single file, with the lady in the lead
 When you get back home, swing your own; you swing your partner round and round
 Do an Allemande Left on the corner, and the grand ol' right and left
 Pretty soon he began to see how the auctioneer talked rapidly
 Do-si-do and promenade from here
 He said "Oh my, it's do or die. I've got to learn that auction cry.
 Gotta make my mark and be an auctioneer."

FIGURE

 And split the outside two and around just one, down the middle do a Right and Left Through

 Then do-si-do your partner, go swing that corner
 You swing that corner gal and promenade around the ring
 10 dollar bidda now, 20 dollar 20 can you give me 20 make it 20 bid in the form of 20 dollar
 Who'll make it a 25 dollar bid?

Congolese Dance Workshop

Bilima

(South Congo)

Bilima is done in various forms in many villages in the Southern Congo. It is a ritual dance honoring the ancestral spirits and calling upon them to aid in healing. According to Sandor, “It is not for fun, but it is fun.” Sandor taught the dance using English names for the figures.

Bilima is traditionally danced to live drummers and singers and there is interaction between them and the dancers. The drummers signal when to start, but they also watch the dance to see when they should stop playing. Sandor chose a recording typical of the live music. You can end after one time through the dance, or repeat a second time. If you run out of music, continue dancing until the end of the dance. Other similar recordings can be used.

Pronunciation: bee-LEE-mah

Translation: Spirits

Music: 4/4 meter

Nzembo Ya Kongo, Track #1

See note above about musical selection.

Formation: Pairs of dancers arranged in a circle, all facing CCW. Any two people can dance together and gender placement is irrelevant.

In the villages, the dance is done in a circle because the belief is that the circle bring and contains the spirits which are being called. In class, Sandor taught in lines to be better able to see the dancers. Note: The video footage that was taken at Camp for the DVD shows the dancers in lines only.

Steps & Styling: Joints loose, knees bent. Arms free and expressive. Dance is done with bare feet.

Meas 4/4 meter

Pattern

INTRODUCTION. Subtle walking in place. Listen to the recording for call and response: Call: “CHEE beh-KAY beh-kah CHAH-wah.” Response: “CHAH-wah.” Sandor explained these are nonsense syllables used just to establish the beat and focus the dancers. Dance may start at any point after the fourth call and response.
